Annals of Dermatology Online Submission System (Main Menu)

- Main Menu > Login

A. Create Account
B. Enter log-in information
C. Find out ID/PW through e-mail
D. Resource, Notice

Description

A. Create Account
B. Enter log-in information
C. Find out ID/PW through e-mail
D. Resource, Notice

It is advised to submit paper after you log in with registered ID.

It is recommended to check if you are already registered by finding out ID/PW before signing up as a new member.
ID/PW 찾기 및 로그인

A. Box that allows you to enter the e-mail address that you used when signing up as a new member

B. Pop-up window that indicates that e-mail was sent to the e-mail address that you entered when signing up as a new member

Log in after checking ID/PW based on the e-mail account that you registered when signing up as a new member. Move to the page for selection of relevant authorization when you log in.
Welcome to the JKSHS Online Manuscript Center site. The links below indicate which "roles" you can currently perform for the journal. Click on a link to begin working in the role (e.g. Author, Reviewer) in Manuscript Central. You can return to the screen to change centre at any time by clicking on the "Main Menu" link above left. Please use 'Edit Account' in the upper right hand corner of the screen to update your contact details and areas of expertise, and to note periods when you will be unavailable to review for us.

**Title**
- Case reports

**Abstract**
- Desmoplastic trichoepithelioma is a rare benign adnexal tumor. Although it is a benign lesion, patients often want to treat it due to cosmetic concerns when it occurs in easily visible site. In our two cases, topical 5% imiquimod was an attractive treatment option as it is applied by patients themselves and has minimal side effects including leaving no scar. However, the lesions recurred after clinical remission. To the best of our knowledge, this is the only report to utilize imiquimod to treat benign adnexal tumor, especially desmoplastic trichoepithelioma. In addition, the report suggests that imiquimod is not a good treatment option for desmoplastic trichoepithelioma.

**Keywords**
- Imiquimod, desmoplastic trichoepithelioma
